#### **INDEPENDENT AUDITOR'S REPORT**

To the Chairman and Board of Trustees Mississippi Valley Library District:

#### **Opinions**

We have audited the accompanying financial statements of the governmental activities and the major fund of the Mississippi Valley Library District as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the major fund of the Mississippi Valley Library District as of June 30, 2024, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the

aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
  procedures that are appropriate in the circumstances, but not for the purpose of expressing an
  opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is
  expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and pension funding information be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Certified Public Accountants Alton, Illinois October 30, 2024

This section of the Mississippi Valley Library District's (Library District) annual audit presents a management's discussion and analysis (MD&A) of the Library District's financial activity during the fiscal year ended June 30, 2024. The MD&A is designed to focus on current activities, resulting changes and currently known facts and should be read in conjunction with the basic financial statements and footnotes. Responsibility for the completeness and fairness of this information rests with the Library District.

#### OVERVIEW OF THE FINANCIAL STATEMENTS

This MD&A is intended to serve as an introduction to the Library District's basic financial statements. There are two components to the basic statements:

- 1. Government-wide/Fund financial statements
- 2. Notes to the basic financial statements

This report also contains required supplementary information in addition to the basic financial statements.

#### **GOVERNMENT-WIDE FINANCIAL STATEMENTS**

The government-wide financial statements are designed to provide readers with a broad overview of the Library District's finances, in a manner similar to a private-sector business.

Both of the government-wide financial statements report only the functions of the Library District. The Library District is principally supported by taxes and intergovernmental revenues and supplemented with user fees and charges. The Library District's sole function is considered that of governmental activities.

The statement of net position presents information on all the Library District's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Library District is improving or deteriorating.

The statement of activities presents information showing how the Library District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The government-wide financial statements can be found in the far right column of pages 8 and 9 of this report.

#### **FUND FINANCIAL STATEMENTS**

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Library District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The Library District is comprised of one general governmental fund.

**Governmental Fund**. Governmental fund statements report how general government services were financed in the short term as well as what remains for future spending. The Library District maintains only one governmental fund. The governmental fund statements can be found in the first column of pages 8 and 9 of this report.

**Notes to the Basic Financial Statements.** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 10 to 19 of this report.

#### **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

The Library District has presented its financial statements under the reporting model pursuant to Governmental Accounting Standards Board Statement No. 34 (GASB 34), Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments.

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the Library District, assets exceeded liabilities by \$2,245,313 at the close of the most recent fiscal year.

The largest portion of the Library District's net position reflects its investment in capital assets (e.g. land, building, furniture, and equipment). The Library District uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. The condensed statement of net position is as follows:

	Governmental Activities			
	June 30, 2024	June 30, 2023		
ASSETS				
Current and other assets	\$ 2,492,151	\$ 2,252,178		
Capital assets, net	1,172,431	1,246,340		
Total assets	3,664,582	3,498,518		
DEFERRED OUTFLOWS	308,001	225,814		
LIABILITIES				
Current liabilities	74,634	63,601		
Net pension liability	332,688	253,998		
Total liabilities	407,322	317,599		
DEFFERED INFLOWS	1,319,948	1,191,406		
NET POSITION				
Net investment in capital assets	1,172,431	1,246,340		
Reserved	243,306	272,419		
Unrestricted	829,576	696,568		
Total net position	\$ 2,245,313	\$ 2,215,327		

Total net position increased by \$29,986 resulting in a balance of \$2,245,313 as of June 30, 2024. Current and other assets, which include cash, accounts receivable, and prepaid expenses, increased \$239,973. Non-current assets decreased \$73,909 due to current year additions of \$47,457 being less than depreciation of \$121,366.

Liabilities, which are largely comprised of the net pension liability and accrued absences, increased \$89,723.

#### **ANALYSIS OF NET POSITION**

	2024		2	2023
Analysis of Net Position	Percent	Amount	Percent	Amount
Net investment in capital assets	52.2%	\$ 1,172,431	56.3%	\$ 1,246,340
Reserved	10.8%	243,306	12.3%	272,419
Unrestricted	<u>36.9</u> %	829,576	<u>31.4</u> %	696,568
Total net position	100.0%	\$ 2,245,313	100.0%	\$ 2,215,327

Total net position balances increased by \$29,986 in fiscal year 2024 to a total ending balance of \$2,245,313. Capital net assets decreased due to current year additions being less than current year depreciation expense. The unrestricted net position balance changed by the net income of operating activities and the current year reporting of the net pension liability. The revenues and expenditure comparisons that comprise the current year increase follow.

#### REVENUE COMPARISON BY TYPE

Revenues by type		<u>2024</u>		2023
Property tax	\$	1,151,912	\$	1,092,006
Charges for services		33,183		28,294
Operating grants		72,326		87,271
Replacement tax		55,329		101,357
Fines and forfeitures		2,964		-
Gifts and donations		12,031		19,138
Investment income		30,743		8,181
Miscellaneous	_	22,887	_	24,393
	\$	1,381,375	\$	1,360,640

Total revenues increased \$20,735 in the year ended June 30, 2024. The overall revenue categories were fairly comparable between years with a decrease in replacement taxes offset by an increase in property taxes and investment income.

#### **EXPENDITURES BY CATEGORY**

	2024		202	3
Expenditures by category	Percent	Amount	Percent	Amount
Personal services	59.4%	\$ 803,230	59.6% \$	799,691
Contractual services	17.5%	236,576	18.6%	249,930
Commodities	6.0%	81,599	6.3%	84,849
Miscellaneous/grant expenses	8.0%	108,618	7.0%	93,742
Depreciation	9.0%	121,366	8.4%	113,152
	100.0%	\$ 1,351,389	<u>100.0</u> % §	1,341,364

Total expenses increased by \$10,025 in the year ended June 30, 2024 with the largest expenditures related to personal services.

As a result of the above revenues and expenses, the Library District's governmental activities reported an increase in net position of \$29,986 in the current year.

#### FINANCIAL ANALYSIS OF THE GOVERNMENTAL FUNDS

As noted earlier, the Library District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The focus of the Library District's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the Library District's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the Library District's governmental funds reported an ending fund balance of \$1,123,733, an increase of \$88,560 in comparison with the prior year. The total amount constitutes unrestricted as well as restricted fund balances, which are available for spending at the Library District's discretion or in accordance with tax levy restrictions or donor stipulations.

The primary difference in income between the government-wide financial statements and the governmental funds results from the different method of expensing capital outlay as opposed to capitalizing the assets and depreciating the assets over the estimated useful lives. Other differences arise from the accounting policies related to long term liabilities and deferred revenues.

#### **CAPITAL ASSETS**

		June 30,	June 30,
		<u>2024</u>	<u>2023</u>
Land	\$	43,006	\$ 43,006
<b>Buildings and Improvements</b>		1,046,232	1,113,106
Furniture, Fixtures and Equipment	_	83,193	 90,228
Total Capital Assets	\$	1,172,431	\$ 1,246,340

The Library District's investment in capital assets for its governmental activities as of June 30, 2024, amounts to \$1,172,431, net of accumulated depreciation. This investment in capital assets includes land, building and improvements as well as furniture, fixtures, and equipment. The Library District expended \$47,457 for equipment and building improvements in 2024. Depreciation expense on all of the Library District's capital assets was \$121,366 for the period ended June 30, 2024. Additional information related to capital assets can be found in Note 5 of the financial statements.

#### **BUDGETARY HIGHLIGHTS**

The Library District approved an appropriation ordinance which provides the budgetary amounts reported in the financial statements. The appropriations ordinance is presented on the modified cash basis of accounting. The appropriations were approved for \$1,736,800 of which the Library District spent \$1,285,682 in the current period using the modified cash basis of accounting. The appropriation ordinance was not amended for the current period.

#### **REQUESTS FOR INFORMATION**

This financial report is designed to provide a general overview of Mississippi Valley Library District's finances for all those with an interest in the Library District's finances. Questions concerning any of the information provided in this report or requests for financial information should be addressed to the Library Director, Mississippi Valley Library District, 408 West Main Street, Collinsville, Illinois, 62234.

#### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2024

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Mississippi Valley Library District (Library District) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. These financial statements are presented in accordance with GASB 34. The more significant of the government's accounting policies are described below.

#### The financial reporting entity:

The Library District was created pursuant to the Library District Act for the purpose of providing materials and services to meet the personal, intellectual, educational and recreational needs and interests of the members of the community. The Library District is a political subdivision of the State of Illinois and is governed by an elected Board of seven trustees for terms of six years each.

#### Government-wide and fund financial statements:

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the government. The Library District is comprised of only governmental activities, which are supported mainly by taxes and intergovernmental revenues, but also receive fees and charges for services.

The statement of activities demonstrates to the degree to which the expenses of a given function are offset by program revenues and taxes.

#### Measurement focus, basis of accounting, and financial statement presentation:

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which the taxes are levied to be used to pay expenses. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Library District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting.

The Library District reports deferred revenue on its combined balance sheet. Deferred revenues arise when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. Deferred revenues also arise when resources are received by the Library District before it has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met or when the Library District has a legal claim to the resources, the liability for deferred revenue is removed from the combined balance sheet and revenue is recognized.

#### Assets, liabilities, and net position:

#### Deposits and investments

The Library District's cash and cash equivalents are comprised of checking accounts and savings accounts. Cash and cash equivalents are deposits or short-term investments with original maturities of three months or less. All deposits and investments are reported at fair value.

The Library District is authorized by state statute to invest in obligations of the United States of America, insured interest bearing accounts of banks, savings and loan associations or credit unions, certain short-term obligations of corporations organized in the United States of America, money market mutual funds that invest in obligations of the United States of America or its agencies or are guaranteed by the full faith and credit of the United States of America, the Illinois Funds and repurchase agreements of government securities.

#### Receivables and payables

The Library District levies its property taxes in each year based upon the assessed valuation as of the previous January 1. Property taxes are due in several installments in the following year, usually beginning in June, and are considered delinquent after the due dates. Property taxes for 2023 became an enforceable lien in January 2024. Because this tax levy will be used to pay for expenses budgeted in 2025, this tax levy is shown both as a receivable and a deferred inflow as of June 30, 2024 in the statement of net position. The Board passed the 2023 tax levy on September 18, 2023.

#### Prepaid items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements.

#### Capital assets

Capital assets, which include property, and equipment, are reported in the governmental activities columns in the government-wide financial statements. The government defines capital assets as assets with an initial, individual cost of more than \$1,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost and estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Property, plant, and equipment are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	Years
Buildings and improvements	5 - 40
Furniture, vehicles, and other equipment	5 - 15

#### Fund balance

In the fund financial statements, the Library District classifies the fund balances based upon the following criteria:

Nonspendable - includes amounts that cannot be spent because they are either 1) not in spendable form, or 2) legally or contractually required to remain intact.

Restricted - balances with constraints that are either externally imposed by creditors or imposed by law through constitutional provisions or enabling legislation. The Library District reports restricted balances due to unspent tax levy balances of \$234,386 and restricted gift fund balances of \$8,920.

Committed - balances that are to be only used for specific purposes pursuant to constraints imposed by formal approval of the Library Board, which has the highest level of decision-making authority. Formal Board approval is required to establish and amend or remove any specific committed balances.

Assigned - balances that are constrained by the government's intent to be used for specific purposes, but are neither restricted nor committed. Assigned balances are authorized by the Library Board or by the Library Director under the direction of the Library Board.

Unassigned - the residual classification of the General Fund balance.

When expenditures are incurred for which the Library District has both restricted and unrestricted funds available, the Library District spends any restricted funds before using unrestricted sources. Likewise, the Library District uses committed, assigned and then unassigned balances, in that order, when spending amounts for which all three categories are available.

#### Compensated absences

Accumulated unpaid vacation and sick time are accrued when incurred. The Library District's policy permits employees to earn one to five weeks of vacation per year, based on length of service. Any unused vacation is forfeited at the calendar year end. The balance of accrued vacation at June 30, 2024 was \$22,514. In addition, employees earn sick leave at the rate of one hour to four hours per pay period, depending on the position. Sick leave can be accumulated to a maximum of 240 working hours.

#### **Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

#### Subsequent Events

The Library District has evaluated events occurring after the financial statement date through October 30, 2024 in order to determine their potential for recognition or disclosure in the financial statements. The latter date is the same date the financial statements were available to be issued.

#### NOTE 2: CASH AND CASH EQUIVALENTS

At June 30, 2024, the carrying amount of the Library District's deposits was \$103,211 and the bank balance was \$102,986. The deposits were comprised of a checking accounts and a savings account.

The Library District also has invested \$1,177,569 with the Illinois Funds as of June 30, 2024. The Illinois Funds are pooled investments that are operated by the State of Illinois as a not-for-profit common law trust and are not registered with the SEC. The funds are monitored regularly through the State by internal and external audits. The goals of the funds are to provide liquidity and to maintain balances that are equal to the par value of the invested shares with no loss to market fluctuations. The fair value of the Library District's position in the pool is the same as the value of the pool shares. The funds have an AAAm rating with Standard & Poor's.

Deposits as reported above	\$	103,211
The Illinois Funds		1,177,569
Total deposits and investments	\$	1,280,780
	·	

As Reported in the Statement of Net Position:

Cash and Cash Equivalents

\$ 1,280,780

Credit Risk. As of June 30, 2024, the Library District does not have any credit risk.

<u>Custodial Credit Risk</u>. Custodial credit risk is the risk that in the event of a bank failure, the Library District's deposits may not be returned to it. The Library District requires that all deposits be fully covered by FDIC insurance or collateralized with investments

held by the financial institution in the Library District's name. As of June 30, 2024, all Library District deposits were fully covered by FDIC insurance or collateralized.

<u>Interest Rate Risk.</u> As of June 30, 2024, the Library District did not have interest rate risk.

Concentration of Credit Risk. As of June 30, 2024, the Library District did not have a concentration of credit risk.

<u>Foreign Currency Risk.</u> As of June 30, 2024, the Library District did not have foreign currency risk.

#### NOTE 3: BUDGETARY AND LEGAL COMPLIANCE

The Library District followed these procedures in establishing the appropriated and budgetary data reported in the financial statements for the year ended June 30, 2024:

- 1. The Library Director submitted to the Board of Trustees a proposed operating budget for the fiscal year commencing on July 1. The operating budget included proposed expenditures and the revenues provided to finance them.
- 2. A public hearing was conducted in regards to the appropriation ordinance to obtain taxpayer comments.
- 3. Prior to September 30, the appropriation was legally enacted through passage of an ordinance.
- 4. The Library District prepares its annual budget on the cash basis (budget basis), which differs from accounting principles generally accepted in the United States of America (GAAP basis).

The budget and all transactions are presented in accordance with the Library District's method (budget basis) in the required supplementary information to provide a meaningful comparison of actual results with the budget. The difference between the budget and GAAP basis is that the budget is prepared on the cash basis of accounting.

#### NOTE 4: <u>ILLINOIS MUNICIPAL RETIREMENT FUND</u>

Plan Description. The Library District's defined benefit pension plan for regular employees provides retirement and disability benefits, post retirement increases, and death benefits to plan members and beneficiaries. The Plan is affiliated with the Illinois Municipal Retirement Fund (IMRF), an agent multiple-employer plan. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained on-line at <a href="https://www.imrf.org">www.imrf.org</a>.

Funding Policy. As set by statute, members are required to contribute 4.50 percent of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The employer annual required contribution rate for calendar year 2023 was 7.91 percent. The employer also contributes for disability benefits, death benefits and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by the IMRF Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Covered Employees. The following types of employees comprise the membership of the plan.

Retirees and Beneficiaries	7
Inactive, Non-Retired Members	7
Active Members	<u>13</u>
Total	<u>27</u>

Discount Rate. GASB Statement No. 68 includes a specific requirement for the discount rate that is used for the purpose of the measurement of the Total Pension Liability. This rate considers the ability of the fund to meet benefit obligations in the future. To make this determination, employer contributions, employee contributions, benefit payments, expenses and investment returns are projected into the future. The Plan Net Position (assets) in future years can then be determined and compared to its obligation to make benefit payments in those years. As long as assets are projected to be on hand in a future year, the assumed valuation discount rate is used. In years where assets are not projected to be sufficient to meet benefit payments, the use of a "risk-free" rate is required, as described in the following paragraph.

The Single Discount Rate (SDR) is equivalent to applying these two rates to the benefits that are projected to be paid during the different time periods. The SDR reflects (1) the long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits) and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of this valuation, the expected rate of return on pension plan investments is 7.25%; the municipal bond rate is 3.77%; and the resulting single discount rate is 7.25%.

Actuarial Valuation Date  Measurement Date of the Net Pension Liability	12/31/23 12/31/23
Fiscal Year End	06/30/24
Development of the Single Discount Rate as of December 31, 2023	
Long-Term Expected Rate of Investment Return	7.25%
Long-Term Municipal Bond Rate	3.77%
Last year ending December 31 in the 2024 to 2123 projection period	
for which projected benefit payments are fully funded	2123
Resulting Single Discount Rate based on the above development	7.25%
Single Discount Rate calculated using December 31, 2022 Measurement Date	7.25%

The Long-Term Municipal Bond Rate is based on the Fidelity Index's "20-Year Municipal GO AA Index" as of December 29, 2023.

Actuarial Assumptions. The following are the actuarial assumptions used in the calculation of the net pension liability.

Actuarial Cos	st Method	Entry Age Normal	
Remaining	Amortization	21 year closed period	

Period Early Retirement Incentive Plan liabilities: a period up to 10 years selected by

the Employer upon adoption of ERI.

Asset Valuation Method Market Value of Assets

Price Inflation 2.25%

Salary Increases 2.85% to 13.75%

Investment Rate of Return 7.25%

Retirement Age Experience-based table of rates that are specific to the type of eligibility

condition. Last updated for the 2023 valuation pursuant to an experience study

of the period 2020-2022.

Mortality For non-disabled retirees, the Pub-2010, Amount-Weighted, below-median

income, General, Retiree, Male (adjusted 108%) and Female (adjusted 106.4%) tables, and future mortality improvements projected using scale MP-2021. For disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Disabled Retiree, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2021. For active members, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables, and future mortality

improvements projected using scale MP-2021.

Net Pension Liability. The following is a summary of the Net Pension Liability as shown as a liability in the financial statements.

Total pension liability		
Service Cost	\$	49,866
Interest on the Total Pension Liability		100,859
